## WEST PARK EVENTS \*

\*Subject to Change

### Aug. 5 - FIRST FRIDAY BUSINESS/ FIXIT NIGHT

Bring your questions or answers to the radio problems of the day/week/month.

### Aug. 19 - PROGRAM NIGHT -

It's never out of date to talk tech talk about HF antennas and their design. Our club expert antenna designer W8PN will provide much insight into what's necessary to have a great antenna.

### Sept. 2 - FIRST FRIDAY BUSINESS/ FIXIT NIGHT

Bring your questions or answers to the radio problems of the day/week/month.

### Sept. 16 - PROGRAM NIGHT - GRAB BAG OF IDEAS

The following programs have not yet been worked off from our master list of 2009. Digital photography software, "home video" of the stations of members (someone has to make the video first), program on GPS and how that works, another Show and Tell, emergency power at home (hey, winter is coming again), people present their other hobby(s), or maybe some kind of magic. One will happen tonight.

## SOAPBOX

**We planned it (Field Day) and we executed the plan! This year we filled all the time slots with scheduled operators! Next year shall we return to 2A operation? Talk it up at the meetings!**

**We have been opening our Monday night nets to check-ins from out-of-state using Skype. Listen or check in. Join the fun.**
